

## UPI Transactions Safety Checklist

**Do not need to scan the QR code to receive the money,  
it may wipe out all the money from their account.**

**UPI does not ask for “PIN” to “Receive Money” into your UPI A/c.**

- Keep the UPI App Updated.
- Before making any payment, verify Mobile Number, Name & UPI ID.
- UPI PIN is required for money transfer only and not for receiving money.
- Always Have a Screen Lock to keep UPI payment safe & also to ensure smartphone's safety.
- While making a payment always check all the alerts received through SMS and verify the correctness of the transaction. It would give exact information how much money was deducted from your bank account right away.
- UPI PIN not to be shared with anyone.
- Do not access any advertisement offers which ask for UPI PIN as it may attempt to deduct money from account.
- Disable Remote Screen Mirroring Frauds. The Screen sharing apps must not be given access to UPI applications.
- Use only “Help section of the UPI App” for any payment related or technical issues. Avoid Fake Helpline Numbers on social media or random Google search.

Stay Protected from  
**UPI Frauds**
